

Addition Starter Problems (page 1 of 2)

In Problems 1–6, solve all three starter problems. Then choose one of the starter problems, and use it to solve the final problem. Put a star next to the starter problem that you used, and show how you finished the problem.

1. $300 + 500 = \underline{\quad}$ $315 + 500 = \underline{\quad}$ $315 + 5 = \underline{\quad}$

Choose one of the starter problems above and use it to solve this problem:

$$315 + 566 =$$

2. $288 + 400 = \underline{\quad}$ $200 + 400 = \underline{\quad}$ $300 + 450 = \underline{\quad}$

Choose one of the starter problems above and use it to solve this problem:

$$288 + 456 =$$

3. $597 + 300 = \underline{\quad}$ $600 + 375 = \underline{\quad}$ $600 + 372 = \underline{\quad}$

Choose one of the starter problems above and use it to solve this problem:

$$597 + 375 =$$

Addition Starter Problems (page 2 of 2)

4. $\$9.94 + \$5.00 = \underline{\quad}$ $\$9.00 + \$5.00 = \underline{\quad}$ $\$0.94 + \$0.06 = \underline{\quad}$

Choose one of the starter problems above and use it to solve this problem:

$$\$9.94 + \$5.16 =$$

5. $500 + 300 + 200 = \underline{\quad}$ $532 + 300 + 200 = \underline{\quad}$
 $530 + 370 = \underline{\quad}$

Choose one of the starter problems above and use it to solve this problem:

$$\begin{array}{r} 1,532 \\ 2,371 \\ + 212 \\ \hline \end{array}$$

6. $785 + 400 = \underline{\quad}$ $800 + 428 = \underline{\quad}$ $785 + 15 = \underline{\quad}$

Choose one of the starter problems above and use it to solve this problem:

$$785 + 428 =$$
