

Student D

Trevor

$$374 \div 12$$

$300 \div 12 = 25$ I know $12 \times 25 = 300$ because we did it a lot
 $4 \times 25 = 100$ and there are 3 of them

$70 \div 12$ $(12 + 12) + (12 + 12) + 12$
 $24 + 24$
 $48 + 12 = 60$

$4 \div 12 =$
 $= \text{answer}$
