

✦ What strategies did the students use to solve this problem?

Harris

How many fingers are there in our classroom?

Write about how you solved this problem.

Use numbers, words, or pictures to show your thinking.

I figured it out with  
tiles. And start to make  
them in a group of 10.  
I Picket 10 becos avry buty  
hase 10 fingrs in the  
class. There are 24 peple in  
The room. so I mad 20  
grops on the rog.  
And then we contid by  
1hs and got to 329.

There are 329 \_\_\_\_\_ fingers in our classroom.

Use numbers, words, or pictures to show your thinking.

$$26 \times 10 = 260$$

We walked around  
the class room counting  
evree prson by tens.

There are \_\_\_\_\_ fingers in our classroom.

Camilla

How many fingers are there in our classroom?

Write about how you solved this problem.

Use numbers, words, or pictures to show your thinking.

$$40 + 40 = 80 + 40 = 120 + 40 = 160 + 40 + 40 = 240$$

(240)

40 is for 40 fingers at a table group.

There are \_\_\_\_\_ fingers in our classroom.
