

## Combinations That Equal 1

Use these rectangles to find combinations of fractions that equal 1. Show the fractions on each rectangle and write the matching equation underneath.

$$\frac{1}{2} + \frac{1}{3} + \frac{1}{6} = 1$$

$$\frac{1}{4} + \frac{1}{2} + \frac{1}{4} = 1$$

$$\frac{6}{24} + \frac{4}{24} + \frac{6}{24} + \frac{1}{3} = 1$$

$$\frac{1}{4} + \frac{1}{6} + \frac{1}{4} + \frac{1}{3} = \frac{2}{4} + \frac{1}{6} + \frac{1}{3} = 1$$

$$\frac{8}{24} + \frac{10}{24} + \frac{1}{4} = 1$$

$$\frac{1}{3} + \frac{5}{12} + \frac{1}{4} = 1$$

$$\frac{3}{24} + \frac{8}{24} + \frac{3}{24} + \frac{3}{24} + \frac{1}{4} + \frac{1}{4} = 1$$

$$\frac{1}{8} + \frac{1}{8} + \frac{1}{8} + \frac{1}{8} + \frac{2}{4} = 1$$

$$\frac{4}{8} + \frac{1}{2} = 1$$

$$\frac{8}{24} + \frac{8}{24} + \frac{1}{3} = 1$$

$$\frac{1}{3} + \frac{1}{3} + \frac{1}{3} = 1$$
