

Student A

There are 32 students going on a field trip.
 Each car holds 5 students. How many cars will they need?

$$32 \div 5 = \boxed{6} \text{ cars} \\ \text{2 leftover}$$

Student B

There are 32 students going on a field trip.
 Each car holds 5 students. How many cars will they need?

$$32 \div 5 = \boxed{6} \text{ 2 kids leftover}$$

Student C

There are 32 students going on a field trip.
 Each car holds 5 students. How many cars will
 they need?

$32 \div 5 = 6 \text{ and } 1 \text{ Extra}$

5 10 15 20 25 30

① ② ③ ④ ⑤ ⑥

Student D

There are 32 students going on a field trip.
 Each car holds 5 students. How many cars will
 they need?

$32 \div 5 = 6 \text{ and } 2 \text{ that } \text{over}$

Student E

There are 32 students going on a field trip.
 Each car holds 5 students. How many cars will they need?

Handwritten student work for Student E:

7 cars

$32 \div 5 = 6$
 $32 - 30 = 2$
 2 left over
 1 = 1 bike

(5) (5) (5) (5) (5) (5) (2)
 (30) (32)

Student F

There are 32 students going on a field trip.
 Each car holds 5 students. How many cars will they need?

Handwritten student work for Student F:

$32 \div 5 = 6$ With Left Over

I used 6 cars for 30 kids. I used 1 more car for 2 student

(5) (5) (5) (5) (5) (5) (2)
 1 2 3 4 5 6 7

Student G

There are 32 students going on a field trip.
 Each car holds 5 students. How many cars will they need?

$$32 \div 5 = \underline{6 \text{ cars}}$$

with

I am going to put them in 1 car so it can be 32 students.

Student H

There are 32 students going on a field trip.
 Each car holds 5 students. How many cars will they need?

$$32 \div 5 = 6$$

the two leftovers could just go into the A car with only 2 in it.

Student I

There are 32 students going on a field trip.
 Each car holds 5 students. How many cars will
 they need?

$32 \div 5 = \boxed{6} \text{ 3 cars left over}$

Student J

There are 32 students going on a field trip.
 Each car holds 5 students. How many cars will
 they need?

EXTRAS $32 \div 5 = \boxed{6} \text{ 2 more}$ *2 more left and save*
 $5 \times 6 = 30$ *left.*
7 cars
